

Funding Opportunity

Department of Defense (DOD) Bone Marrow Failure Research Program

Through its Office of Congressionally Directed Medical Research Programs (CDMRP), the DOD has \$5 million to distribute for research related to acquired and inherited bone marrow failure during fiscal year 2009. It is estimated that approximately 11 grants will be issued from by DOD, as detailed in its press release. (<http://cdmrp.army.mil/pubs/press/2009/09bmfrrpreann.htm>). To stay current with this funding opportunity, check the CDMRP website (<http://cdmrp.army.mil/>) for updates.

We are posting the preannouncement for this funding opportunity to support investigators interested in Fanconi anemia in planning and developing their applications. The contact person for this grant program is Gail Whitehead, Public Affairs Coordinator, CDMRP, at 301-619-7783 or email gail.whitehead@amedd.army.mil.
