These guidelines for the clinical care of Fanconi anemia (FA) were developed at a conference held April 5-6, 2013 in Herndon, VA. We owe a tremendous debt of gratitude to Eva Guinan, MD, for serving as moderator of the conference, as she did for the consensus conferences for the first three editions, and for her skill in helping the participants arrive at consensus.

We would like to thank all the participants for donating their time and expertise to develop these guidelines. The names and contact information of all participants appear in the Appendix.

These guidelines are posted on our Web site and are available from:
